

Ducati 1098, 1098S, 848, & 1198

Installation: Dual Slip On System

Please Read Carefully

Read all instructions before installation. Make sure the vehicle and exhaust system are completely cool & on level ground before installation. You should have some mechanical knowledge and a basic set of tools. (A lift, center or rear stand will help.) We advise that this installation be done by a qualified technician. If this is a street vehicle, you may need to modify or replace your stock license plate bracket and turn signals. Please consult your local dealer. Check your local laws to make sure you are in compliance. HMF is not responsible if you are not.

Stock Exhaust Removal

1. Using a **Spring Puller** or **Piece of Wire**, remove the **Stock Silencer Springs**.
2. Remove the **Stock Bolt** from the **Silencer Straps**. (Figure 1)
3. Remove the **Silencer Mounting Bolts** located at the **Body Strap**. (Figure 2)
4. Remove both **Silencers** and keep all the stock parts, they will be used with the **HMF Silencers**.

HMF Dual Slip On Installation

1. Slide the **Body Strap** over the **HMF Silencers** and slide the **HMF Silencers** onto the **Stock Header**.
2. Install the **Bolt** in between the **HMF Silencers** on the straps. **Do not tighten completely**.
3. Install the **Mounting Bolts** on the **Body Straps**. **Do not tighten completely**.
4. Align the **Silencers** and tighten all **Mounting Bolts**.
