

# Honda CRF 250 (04-05)

Installation: Slip On System

## Please Read Carefully

Read all instructions before installation. Make sure the vehicle and exhaust system are completely cool & on level ground before installation. You should have some mechanical knowledge and a basic set of tools. (A lift, center or rear stand will help.) We advise that this installation be done by a qualified technician. If this is a street vehicle, you may need to modify or replace your stock license plate bracket and turn signals. Please consult your local dealer. Check your local laws to make sure you are in compliance. HMF is not responsible if you are not.

## Stock Slip On Removal

1. Remove the **Right Side Panel**. (See Figure 1)
2. Loosen the **Head Pipe** to the **Silencer Joint Clamp**.
3. Remove the upper and lower **Silencer-to-Subframe Bolts** and remove the **Silencer**. (See Figure 2)

## HMF Slip On Installation

1. Slide the **T-Bolt Clamp** into the **S-bend Inlet**.
2. Using the **Stock Bolts**, mount the **HMF Silencer** in the **Stock location**.
3. Tighten the **Silencer Mount Bolts**, then tighten the **T-Bolt Clamp**. (See Figure 3)
4. Install the **Right Side Panel**.
